## INTRODUCTION

Fakaalofa lahi atu.

We are very happy to put out this statistical release for the third quarter of 2022 ending 30<sup>th</sup> September following the 2018 rebased Niue Consumer Price Index (CPI).

The report is structured as followed:

1. Niue Consumer Price Index (CPI): September quarter 2022
2. Movements: Quarterly inflation of the CPI
3. Movements: Annual inflation of the CPI
4. Domestic and imported indices and inflation
5. Quarterly and annual contributions to the CPI
6. Main items which impact the CPI

## General information and acknowledgements

### *What is the Consumer Price Index?*

Consumer Price Index (CPI) measures changes in the prices of goods and services that households consume. Such changes affect the real purchasing power of consumers' incomes and their welfare. As the prices of different goods and services does not all change at the same rate, a price index can only reflect their average movements? (*ILO Consumer Price Index Manual: Theory and Practices (2004)*)

### *Uses of the CPI.*

The CPI was originally introduced to provide a measure of the changes in the living costs faced by workers, so that wages could be related to the changing levels of prices. However, over the years CPI have widened its scope and nowadays widely used as a macroeconomic indicator of inflation or a proxy for a general index of inflation for the economy as a whole. It has become a key statistic for the purpose of economic policymaking.

### *Imported inflation: What is imported inflation?*

“Inflation due to increases in the prices of imports. Increases in the prices of imported final products directly affect any expenditure-based measure of inflation. Increases in the prices of imported fuels, materials, and components increase domestic costs of production, and lead to increases in the prices of domestically produced goods. Imported inflation may be set off by foreign price increases or by depreciation of a country's exchange rate”. *Oxford dictionary of Economics.*

### *Acknowledgement*

Statistics Niue acknowledges the owners and workers of the various retail outlets of Niue who have assisted the staff with the collection of the data necessary to compile the CPI of Niue. Fakaau lahi mahaki, thank you very much. We look forward to your ongoing support so together we will provide good price statistics for the use of policy makers of Niue and Government in their decisions to make Niue prosperous.
